

ANCITE

Electromagnetic Dosing Pump

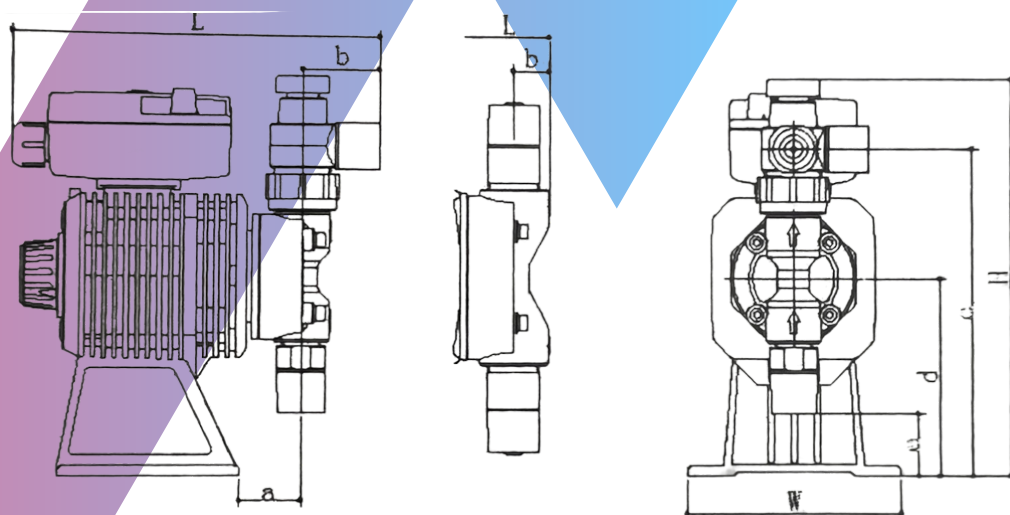

EZ Series

- Full range of wide voltage configuration, suitable for voltage requirements in different countries around the world, is a must have item for equipment.
- Frequency up to 360 spm stable operation, the overall vibration is smaller, the pulsation is smaller, the measurement is more precise, and it is widely used in various fields.
- Low noise operation, quiet and environmental.
- The pump head and flow end part use medical grade PVC transparent material, which is more exquisite, more high end.
- Manual adjustment
- Chemicals feed pump

Specification

Model	EZ - B10VC-W1 /ACDP0.9	EZ - B15VC-W1 /ACDP3.8	EZ - B20VC-W1 /ACDP7.6
Capacity (l/h)	0.9	3.8	7.6
Max. Pressure (MPa/Bar)	1.0 / 10	0.7 / 7	0.4 / 4
Stroke Rate (spm)	0 - 360	0 - 360	0 - 360
Connection Tubing (ID*OD - mm)	4*9	4*9	4*9
Power Consumption (watt)	20	20	20
Current (A)	0.5	0.5	0.5
Power Supply (V)	220	220	220
Pump Head	PVC	PVC	PVC
Diaphragm	PTFE (Bonded to EPDM)	PTFE (Bonded to EPDM)	PTFE (Bonded to EPDM)
Valve Ball	Ceramics	Ceramics	Ceramics
Valve Seat	FKM	FKM	FKM
Valve guide	PVC	PVC	PVC
Gasket	PTFE	PTFE	PTFE
O ring	FKM	FKM	FKM
