

DRINKING WATER VENDING MACHINE

	<u>FT VM RO 150</u>	<u>FT VM RO 300</u>
Capacity GPD (LPD)	150 (600)	300 (1200)
Pre Treatment – Softener	PP20"+Carbon 20"+Resin20"	PP20"+Carbon 20"+Resin20"
RO Unit	RO – 150GPD (1 E)	RO – 150GPD (2 E)
Storage Tank	PE 200 Liter	PE 200 Liter
Post Treatment	Carbon 10"	Carbon 10"
Disinfectant	UV Sterilizer – 6 Watt	UV Sterilizer – 6 Watt
Control – RO Unit	Liquid Level Switch – FULL Low Pressure Switch	Liquid Level Switch – FULL Low Pressure Switch
Control – Filling	PLC BOARD Liquid Level Switch – Dry	PLC BOARD Liquid Level Switch – Dry
Bottle of Water – Size	600ml / 1500ml / 20L	600ml / 1500ml / 20L
Construction – Material	Fiberglass	Fiberglass
Construction – Size ,cm	76*85*175	76*85*175
Other Equipment	Water Meter Electrical Meter Breaker Coin Selector Pilot Lamp RO Pump 150G (24V) Delivery Pump (220V) Solenoid Valve	Water Meter Electrical Meter Breaker Coin Selector Pilot Lamp RO Pump 300G (24V) Delivery Pump (220V) Solenoid Valve
Funtion – PLC BOARD	Turn OFF / ON – Light Bulb Water Filling Volume Present Time	Turn OFF / ON – Light Bulb Water Filling Volume Present Time

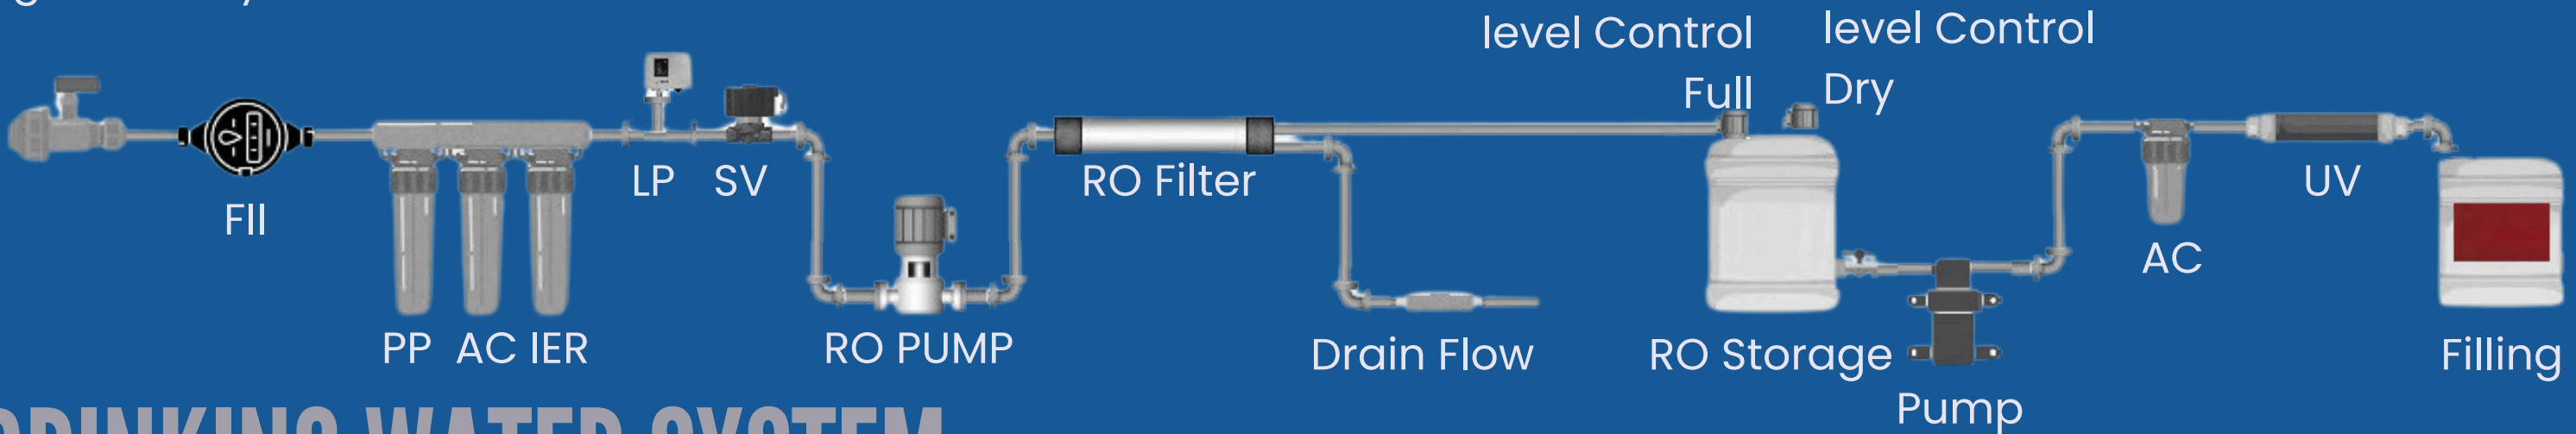

The product using Softener and RO system 0.0001 Micron Filtration Technology for Water Purification Our cutting-edge filtration system eliminates both visible and invisible contaminants—including living organisms and non-living particles—ensuring the ultimate purity for your family.

What We Filter Out:

- Physical Impurities: Sediment, unpleasant color, and foul odor.
- Chemical Hazards: Hardness, chlorine, arsenic, rust, heavy metals and removal TDS/EC.
- Biological Threats: Bacteria, viruses, and living pathogens.

Healthy Water for a Healthier Life.

Enjoy pure, safe, and premium drinking water directly from your tap. It is like having a professional water bottling plant right inside your home.

DRINKING WATER SYSTEM
