

PP Sediment String Wound Filter Cartridge

Using 100% Polypropylene (PP) as material, the filter cartridge contains no wetting agents, solvents, antistatic agent or binders; each micron rate has its string pattern to ensure the filtration effect. The filter cartridge has a better dirt-holding capability than the general PP Sediment Filter Cartridge. Apply to liquid filtration in the fields of petroleum, chemical, electronic, electroplating, medicine, food industry, drinking water and other water treatment application.

Operating Date

Material : PP
Operating Temp : 4°C-52°C
Filtration : 5 µm
Max Pressure : 60 psi (for 10" Standard)
: 110 psi (for 10" Big Blue)

Model	Length (Inch)	O.D (Inch)	I.D (mm)
FPW-10	10	2.5	30
FPW-20	20	2.5	30
FPW-30	30	2.5	30
FPW-40	40	2.5	30
FPW-10BB	10	4.5	30
